Ministry of Defence Safeguarding

NOTICE TO WIND FARM DEVELOPERS

Please submit a completed application form for all new or revised onshore and offshore wind farm plans. Its purpose is to standardise the information provided and to expedite the assessment of your proposed wind farm development. Assessment is made against the safeguarding requirement of MOD assets and operations, including MOD radars, through evaluation of the possible effects on air traffic systems, defence systems and low flying needs.

WHAT TO DO WITH THIS FORM

Please provide as much detail as possible by **filling in the shaded areas.** If the specific turbine and/or exact positions have yet to be established then fill in the likely turbine size (hub height, rotor diameter) and boundary points as a minimum. On completion send copies to following address.

CONFIDENTIALITY

Unless directed otherwise, the Ministry of Defence will treat all pre-application information in confidence and the information will only be used or disclosed in accordance with the wishes of the confider.

Or to the following email address:

DIO-Safeguarding-Wind@mod.uk

It is important that a copy of this form is retained for inclusion with subsequent planning applications at the same site. It should also be included with any subsequent planning application.

DISCLAIMER

On the basis of the information included in this form the MOD will carry out an assessment of the potential technical impact of the proposed development on defence interests. Whilst this consultation will identify the MOD assets and operations, if any, affected by the wind farm proposal, it will not necessarily be able to give definitive information regarding the operational impact of the development. This is because the operational impact of the development, in many instances, will depend on a number of variable constraints. These include the number of built and consented turbines, and the number of proposed turbine developments in the planning system in the vicinity of the proposal. As MOD cannot predict what this will be at any point in the future, in many instances, MOD will not be able to comment on whether a development will have an acceptable or unacceptable operational impact at the pre-application stage.

Wind Farm Pre-Application Consultation

Wind Farm Name
Hill of Fare

Developers reference	PSCOhfr007
Related/previous applications (at or near this site): Provide reference names or numbers	

Developer Information

Company name:	RES Ltd
Address:	Beaufort Court, Egg Farm Lane Kings Langley, Hertfordshire WD4 8LR
Contact:	Sam Johnson
Telephone:	07799 903098
Facsimile:	01923 299 462
e-mail:	sam.johnson@res-group.com

Relevant Wind Turbine Details

Wind farm generation capacity (MW)	122.4	**Number of turbines**	17

Number of blades	3	
Rotor diameter	162	Meters
Wind turbine hub height	169	Metres
Tower design (* delete as required)	* Tubular	

Comments

Are there any details or uncertainties that it may be helpful to add?

Turbine Locations

Please provide as much information as you can. The position of every machine if available, the site boundary if not.

Copy this page as necessary to account for all turbines or boundary points
